## "Mighty Monarch of the Air" Majestic

MAJESTIC—already crowned "Mighty Monarch of the Air"—now gives the world the most powerful and most selective radio set ever built.

### POWER DETECTION

The new models 91 and 92 have Power Detection and the new 45 tubes, plus four tuned stages of radio frequency.

### NO HUM!

Absolutely **no hum** and **no oscillation** at any wave length. Automatic sensitivity control gives uniform sensitivity and amplification in both low and high wave lengths.

### SUPER-DYNAMIC SPEAKER

Improved Majestic Super-Dynamic Speaker. Deep, rich tone. Extra heavy, sturdy Majestic Power Pack insures long life and safety.

### DEMONSTRATION IN YOUR OWN HOME

We will gladly give you a demonstration of the remarkable new Majestic in your own home without cost or obligation.

The Champion Pharmacy  
Druggists and Chemists

## Champion Theatre

Thursday and Saturday, Oct. 31--Nov. 2

### "The Exalted Flapper"

A Princess Sets the Style

Just a trip to New York—but what a difference it made in the life of Her Royal Highness—she emulates the American Flapper in dress and independence and refuses to marry an unknown Prince! Back home—She wakes up the stately little kingdom with her modern ideas—and learns to love a handsome stranger who adores her as an Exalted Flapper. But there's a surprise in store for them—and for you, too!

THIS WEEK

### "China Bound"

COMING

### "The Woman in White"

## READY TO SERVE YOU

At all times with the choicest fresh and cured meats available.

Our stock has never been more complete in every line we carry.

Champion Meat Market

## Baby Clinic Was Popular

Twenty-one babies were presented to Nurse Davidson, in charge of the baby clinic held under the auspices of the Women's Institute here on Tuesday, Oct. 22, for her expert observation and attention. Preparations for this event were in the capable hands of Mrs. Miffin, and to her a large share of the credit for the success attained is due. Mrs. U. S. Alexander gave the use of her home for the occasion, for which all expressed appreciation. The result was highly successful in every way, the advice given by the nurse as to feeding and care, together with a professional report on general health and condition was highly appreciated by the mothers and the clinic will be repeated next June under the same auspices.

## Groves-Daub

A very pretty wedding took place at the Catholic church, St. Mary's, on Tuesday, Oct. 22, when Miss Annetta Daub became the bride of Franklin Maxwell Groves, both being residents of the Champion district. Rev. Father Hughes performed the ceremony, only immediate relatives of the contracting parties being present. The bride looked charming in a transparent blue velvet dress, with slippers and stockings to match. After the ceremony the happy couple left for Calgary on a short honeymoon trip. They will reside near Champion.

## Smith-Sergeant

A quiet wedding took place in the vestry of Knox church at Calgary on Thursday when Rev. Geo. Dixon united in marriage G. F. Smith and Miss Nellie Sergeant. After a short honeymoon the newlyweds will make their home on the farm at Champion.

## More Weddings In Prospect

Two showers were held last week at the home of Mrs. Henry Lebsack in honor of Miss Mary Lebsack and Miss Katherine Hartung, prospective brides of the near future. A very pleasant evening was spent, games of various kinds being played. Lunch was served by Mrs. Henry Lebsack, Miss Bertha Lebsack and Mrs. Charles Lebsack. The guests of honor received many beautiful and useful presents.

While a fair response has been made to the request for payment of subscription arrears there is still a very large amount outstanding. Carelessness is a considerable factor in this situation, it being very difficult to impress upon delinquents that while their individual obligation is small, multiplied by hundreds the total amount is impressive. Possible improvements to plant and paper are delayed by the failure of prompt payment of amounts due. Just think it over, and whether you owe for one year or more make it a point to clean this small matter up. You will benefit by increased service—that's what we want the money for.

## Tommy Doyle Kicked By Pony

Tommy Doyle had the misfortune to be kicked by a shetland pony last Saturday, sustaining a severe cut on the back of his head. First aid was rendered in Campbell's store, in front of which the accident occurred, and Dr. Fresser was summoned. It was decided to send the patient to Calgary as there was fear of skull fracture and he was rushed to the Holy Cross hospital. An operation was not found necessary, however, and the patient is now well on the way to complete recovery. The pony responsible for the damage did not kick at the boy but at another pony, Tommy's head intervening.

## Mrs. M. Stevenson Dies Wednesday

The death occurred on Wednesday of Mrs. Mary Stevenson at the home of her daughter, Mrs. D. Watkins of the Champion district. The deceased was in her 81st year and leaves a large number of relatives here. The funeral took place from Armstrong's funeral parlors, Calgary, on Friday.

## Maude Henderson Players Coming

The Maude Henderson Company, billed here for Nov. 7, 8 and 9, will provide three real nights of entertainment for the people of this district. The community hall provides accommodation for such a show and for the first time a company of this class is coming here. The opening play will be "The Love Nest," and there will be a change of bill for each night.

## Vancouver Grows To Great Seaport

The day has come when Vancouver must be numbered among the great ports of the world. Fifty different steamship lines now serve to carry Canadian products to every continent. Scheduled sailings are maintained to the important Atlantic ports of North America, and there are direct shipping connections with Europe, Asia, Africa and Australia. In a period when other great ports have had difficulty in maintaining their pre-war volume of trade, traffic through the port of Vancouver has experienced steady growth. In 1913 there were 132 ocean going vessels which visited this port, and the number sailing there in 1928 was 1,344, an increase of more than 900 per cent. in ten years. During the past year the total trade of the port had a value of \$290,000,000 an aggregate so large that Vancouver rather than San Francisco, is now considered the leading Pacific port of North America. —Royal Bank Letter.

All the way from Italy comes a subscription order for the Lethbridge Herald. The subscription comes from S. Comanin, of Turin, who is on a vacation in Europe. "Early next spring," he writes, "I expect to be back in dear old Canada." That is what he thinks of his new homeland.—Lethbridge Herald.

## Leishman Clothes

A GOOD BUYING HABIT

It is a wise plan when buying clothes to study the quality first and talk price last.

Wherever you find the price argument predominates rest assured that price has predominated at every stage of manufacture.

Examine our LEISHMAN clothes and compare them with any other make you wish.

From start to finish, LEISHMAN clothes are made on a Quality First basis and give you the greatest value for your money.

We Guarantee to make the Clothes Fit the Man—not the Man to Fit the Clothes

## NOTES AND COMMENT.

By including turkeys, geese ducks and other fowls Alberta's livestock population nearly reaches the 11,000,000 mark. Beef cattle and horses show a decrease, however.

Foster prophesies a real touch of winter beginning Oct. 28 and lasting to Nov. 6. The ten days prior to these dates will be of Indian summer character, according to the same authority.

The provincial election in Ontario is largely a contest between the two old parties, conservatives and liberals. The L. F. O. and progressive nominations are few in numbers.

Nova Scotia votes on the liquor question on Oct. 31st, with the issue prohibition or government control. Previous votes in that province have favored prohibition by large majorities.

To judge by press reports an attempt is being made to marry off the family of Premier Bennett McDonald whether they want to marry or not. Denials of engagements on the part of the principals are quite a feature of the daily news.

Between the dispute with Soviet Russia and internal dissension Canada continues in turmoil. How in the world do they get time enough for it all and still manage to live?

Eight aerial explorers have been lost in the barren lands for over forty days and searchers are now busy trying to locate them. It is to be hoped it will not be necessary to search for the searchers. There seems to be a big element of risk in flying over the frozen wastes of the North.

Perhaps the most cheering feature of the wheat situation is the high quality of the grain held. It is a rare occurrence for this class of wheat to decrease in price as the season advances.

Women may now be appointed to the Senate in Canada. Either fortunately or unfortunately it will be a long time before they may hope to control it.

W. E. N. Sinclair, leader of liberal party in Ontario holds that the gasoline tax is illegal on the part of a province, being collected by the gasoline companies and therefore a form of indirect taxation and ultra vires except when imposed by the Dominion government.

Auction sales this fall have all been very successful in obtaining fair values for the offerings. Horses have perhaps been the weakest feature of the sales, particularly when the animals were aged, but with

the trend towards power farming so pronounced this is not to be wondered at. Cattle, machinery and household effects have all made good prices according to reports. Doubtless the presence of large amounts of cash in buyers' hands has been partly responsible.

Oil shares have shown a disposition to bring better prices recently, several issues having made substantial gains. Multiplying of issues on a rising market naturally has the effect of distributing the money available for speculative investments over a considerably wider territory and any check to advancing prices has a tendency to weaken the whole structure.

Hockey news will now replace baseball since the world's series is over and winter is approaching. If this game continues to grow in popularity in the east baseball will have a real rival in public esteem.

Hallowe'en is close at hand again and the necessity of having property damage avoided in the celebration of the event is again a matter of interest. Individuals dislike taking personal action in this matter, which should be taken care of by the authorities, but one or two claims in connection with damage done would assure parental interest at least. In past years outsiders have taken quite a part in the festivities, not a desirable thing in any way.

Grain is moving slowly both on the roads and the railway. It is a little difficult to get accustomed to a fall in which nobody appears to be active except carpenters and builders. If they did nothing else the old horse teams kept things looking lively at this time of year.

## Lutheran Church Services

The Lutheran Church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Oct. 27th, at 11.00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

REV. F. A. DUENNING, Pastor

## BRINGS MESSAGE OF PEACE TO THE DOMINION

Ottawa.—As to the capital of the United States a few short days ago, Rt. Hon. Ramsay MacDonald, prime minister of Great Britain, brought to the capital of Canada a ringing message of peace. But he coupled with the word "peace" the words "national honor." Canada, Great Britain, those other nations which composed the British Commonwealth, must not forget that their sacred honor was involved in the crusade for peace. They must remember that fundamental thing—they were signatories to a pact of peace.

Leaving across the flower-strewn banquet table in the parliament buildings, the home of Canada's legislators, the voice of the prime minister of Great Britain rang across the ears as he emphasized his words.

"You sent your own prime minister across the ocean to sign a pact of peace," he said. "His name is attached to that document is your name. And you have declared that war has been banished from the national policy. It is our signature to be a mere scrawl of ink upon a perishable document? The signatures of Canada, of Great Britain, of Australia and other dominions have now become part and parcel of their national honor."

That was the position, and he felt that the British Empire was prepared to perform sacrifices in order to ensure that national honor remained unscathed to the end.

The gathering to which Britain's Labor premier spoke was one of the most distinguished that has thus far faced in his tour on the continent of America. Round the white horseshoe which was the banquet table, were guests including the minister of Canada, the leader of the Conservative opposition, members of the Dominion cabinet, members of the privy council from four corners of the Dominion, and the highest officers of the Canadian judiciary.

There were 132 persons present. According to custom, when the government gives a dinner, the government-general, who as representative of the king would outrank all others present, and Her Excellency, did not attend.

That the words of the speaker, whether grave or gay, found ready response in the minds of those present was indicated by the constant ripple of applause which ran round the table. That his mission had the support of the leaders of the Canadian people was another testimony. The speeches of the prime minister of Canada, Rt. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

The honor in which Mr. MacDonald is held was indicated by Mr. King when he announced that the cabinet had passed an order of appreciation, conferring the rank of a member of the privy council of Canada upon the distinguished guest.

All that Great Britain was attempting to do at present was to nullify national honor," said Mr. MacDonald. The great crisis in the past had been that good men and women had spoken righteously, but worldly-wise individuals had always refused to practice it. Now the time had come for a change.

"The great problem we have to face is the problem of the transition time," asserted the British leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faint ones of the world might falter, might need the help of their stronger brothers.

"We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling out to where real peace and security may be enjoyed."

### Daily Air Mail Service

St. Paul, Minn.—Daily service over an air route between Winnipeg and St. Paul—instead of every other day—is announced with the statement that the Schele-Brock Aircraft interests have acquired the Canadian-American Air Lines. Service between the Twin Cities and Port Arthur is to be inaugurated as soon as a field at the head of the lakes is prepared.

### More Buildings Needed

Saskatoon.—In order to keep pace with the growth of the city, the Saskatoon, more buildings are necessary, particularly one for arts and science, according to President Murray, who addressed a gathering of over 300 students at the Arts and Science dinner.

## Madame Curie Visits America

Came To Attend Celebration Held In Detroit For Edison

New York.—Tranquilly passing about her in wonderment, a little old lady in black came slowly down the gangplank from the liner "Le de France" here.

The bustling, chattering crowd on the pier fell silent as her frail figure appeared on the deck above them. "It's Madame Curie," the whisper went around.

Her steps carefully guided by Assistant Charles Gates Dwyer, who had arrived on the "Le de France," and by Owen D. Young, who had come down to meet her, Mme. Marie Sklodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She came to honor her fellow-citizen, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Detroit.

Mme. Curie will be the guest of President and Mrs. Hoover, at the White House, October 29 and 30. She will receive while there a cheque for \$50,000 raised in this country for the purchase of a gram of radium which will be presented to the Radium Institute at Warsaw, Poland, her native city.

## "Journey's End"

British Dramatic Presentation Will Furnish Food For Western Audiences

Regina.—A rare thing in the theatre is a play that appeals to English and American audiences alike. An even rarer thing is a play that can run simultaneously and successfully in both London, England, and New York. "Journey's End," which comes to the Grand Theatre, Regina, for three nights, beginning Monday, October 28, has done both of these things, but for nearly a year it has been the foremost and undisputed hit in both theatrical capitals.

"Journey's End," a war play by Robert Cedric Sherriff, was originally put on in London, where it took the town by storm. The English critics lauded it, praising it as hardly duplicated in the modern theatre. "Journey's End" is a quiet, restrained study of men in war. The cast is composed entirely of men, and the scene is laid in front line dugout before St. Quentin. We see a small group of British officers waiting for the great German attack that they know is bound to come, and we see their various reactions in the face of the common danger. That is all. Yet in this simple, unadorned fragment of front-line life, playwright Sherriff has managed to pack more human interest, excitement, humor, heroism, and tragedy than one would get in an entire season of ordinary plays.

## Ottawa Welcomes Canoeists

Young Montrealers Making Unique Trip From Vancouver To Halifax

Ottawa, Ont.—Richard Leese and five other members of the Montreal canoeists, were welcomed to the capital by Mayor Arthur Ellis. Later a civic automobile was placed at their disposal, and the intrepid paddlers and they visited Mayor Lambert of Hull, Quebec.

The unique trip by which the young Montrealers have travelled from Vancouver, and plan to reach Halifax, N.S., some time next month, was temporarily halted here while Leese travelled by train to Montreal because of the serious illness of his sister.

## Itinerary Made Public

Premier King Will Speak In Eight Western Cities

Ottawa.—The itinerary of Premier Mackenzie King's western tour made public. The prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Calgary and Regina.

Hon. J. L. Talbot, Minister of National Defence, is making a tour of inspection of the West at the same time, and will accompany the company Mr. King for much of the tour. Senator Arthur Haydon, of Ottawa, will also accompany the prime minister.

## West Buys Eastern Potatoes

St. John, N.B.—Shipments of potatoes from the Carleton Place, Victoria county, in New Brunswick, are being made to Western Canada, particularly the prairie provinces. The recent ruling of the railways, giving the privilege of bagging the tubers while in transit, is helping the situation and shippers claim the whole New Brunswick crop will find good markets.

## Famous Library Restored

Louvain Library Richer In Some Respects Than Before War

Brussels.—When the Louvain Library was destroyed by fire, in August, 1914, during the German occupation, it contained some 300,000 volumes, including 1,500 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, and in some respects, is richer than before.

By virtue of the Versailles Treaty, the Germans promised to restore the library's contents, and since the armistice they have restored a total of 300,000 volumes, inclusive of 600 incunabula and 300 manuscripts, including one of the eleventh century.

## Movie Actor Killed

Chicago.—Rudy Cimino, 23, New York dare devil, fell to his death while sliding down a rope from the 44th floor of the new Civic Opera building, and in his fall injured several spectators, one of them fatally.

He was performing for moving picture cameras.

## ASK FOR FREIGHT RATE EQUALITY FOR THE WEST

Ottawa.—Complete equalization with the rates to the head of the lakes was demanded by representatives of the British Columbia and Alberta governments in an appeal to the Dominion cabinet against the general order of the Board of Railway Commissioners on the subject. Leon J. Lander, M.P., counsel for British Columbia, and S. B. Woods, K.C., counsel for Alberta, submitted their appeal, but it was not given in the rate basis over the mountains than in the rate basis in any other part of Canada.

Counsel for Manitoba and Ontario, the Winnipeg Board of Trade and the City of Winnipeg, as well as the Federal Government Department of Railways, have given notice of their intention to oppose the appeals.

The millers of Canada are represented by counsel, but so far their attitude has not been disclosed. They probably will support the appeal. A majority of counsel and the cabinet were agreed that the provincial governments appeal signed by the governments of British Columbia, Alberta and Saskatchewan would be postponed after a protest from other parties interested that submitted notice had not been given.

After the United Farmers' appeal had been presented it was decided that if any lawyers wanted to go on with the petition of the farmers, which coincides with the first, there would be no objection. A motion put by the Hon. A. B. Hudson, for the Minister of Railways, that the question of the mountain differential should not be discussed at the present time, was carried. The result has been a prolonged discussion on the merits of the British Columbia case and the validity of the differential paid in railway decisions rendered by the board of Railway Commissioners on the mountain differential.

## WITH MACALPINE PARTY

Richard Pearce, Editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on their trip across the barren lands, on his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on their trip across the barren lands, on his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on their trip across the barren lands, on his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

## Arranges Atlantic Flight

Major Kingsford-Smith Plans London-New York Trip Next Summer

Vancouver.—Major Charles Kingsford-Smith has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said following his arrival in the city which he spent several years of his school days in.

"I have one more ocean to cross," he said as he referred to the 70,000 miles his plane, the Southern Cross, has flown since he made his trans-Pacific flight early last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said. "She will be practically rebuilt, but the old engines, which have crossed the Pacific and Indian oceans and have been around Australia on many trips, will be in the Southern Cross when we start west across the Atlantic."

## Urge B.C.-Alberta Highway

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to complete an inter-provincial highway from Vancouver to Alberta as quickly as possible was adopted by the B.C. Good Roads League, which was unanimously endorsed by the Good Roads League of British Columbia. No suggestion was made as to whether the Big Bend route or the Kamloops-Jasper link should be used.

The convention endorsed a recommendation favoring removal of federal aid for highway construction. J. Johnston, of New Westminster was elected president for the ninth time.

## Ask More Pay For Civil Service

Ottawa.—Creation of a minimum annual salary increase of \$120 for Federal Government Departmental workers, was requested by President V. O. Phelan, of the Civil Service Federation of Canada, when he appeared recently before the civil service commission. A complete and careful consideration of the request was promised by the commission.

Dean Rutherford believed that eventually the system of sampling from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lake or at Vancouver. More than 50 per cent of the cars, he pointed out, were too full for sampling. Both the unloading and elevator companies, he said, had been overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a large number of samples during the unloading, which gave an absolutely reliable sample. This sample was kept for a sufficient length of time to allow for inspection.

He stressed the point that the elevator companies should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, and these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producers. New machinery, Dean Rutherford said, had led to some changes. Separation of weeds and foreign varieties of grain could now be made. Wild oats were now a commercial commodity and were sold in the East Indies, where they were fed to mules. The new machinery had made more than a bushel out of wild oats last year.

## Presented With Honor

Samuel Laroche, Famous Wheat Grower, Is Knighted Of Gifts From Admirers

Britle, Man.—Samuel Laroche, aged pioneer agriculturist of the western plains, whose discoveries of rust resistant grains have made him internationally known, tonight sleeps in a new house, located amid the rolling hills and fertile fields overlooking the picturesque Brail Valley.

Today, surrounded by hundreds of friends, by the Lieutenant-Governor of Manitoba, Hon. James D. McCreger, and representatives of the provincial government, the house was presented to Mr. Laroche, a tribute to his work which has greatly enriched Canadian agriculturists. Recently the Laroche home was destroyed by fire.

Friends throughout Canada contributed funds for the construction of the modern home.

## Powers Accept Invitation

Will Attend Naval Conference In London In January

London, England.—The British Government has received official replies accepting its invitations to every instance to a five-power naval conference here in January and also expressing a willingness to participate in proposed preliminary discussions of the problems of limitations.

The texts of both the Italian and French replies were published. Italy expressed the desire to collaborate in any step calculated to eliminate the dangers of excessive armaments and said its view on the subject was too well known to require restatement.

The text of the Japanese acceptance had also been received, but has not been made public as yet.

## ALMOST ALL OF THIS YEAR'S CROP IS OF HIGH GRADE

Saskatoon, Sask.—This year more than 90 per cent of the wheat falls within the statutory grades. Protein content averages 14 per cent, and the moisture is as high as 10 per cent. Each year since the Canada Grain Act was passed "commercial grade" wheat has been the standard, and this year no such grades could be fixed, because there was no limit of such grain to be a first sample. This year the first time such a thing has happened.

These were some of the statements made by Dean W. J. Rutherford, of the University of Saskatchewan, during discussion following the address to the monthly meeting of the local branch of Canadian Society of Technical Agriculture, at the University, on the subject of "The Grading of Grain."

The Canadian system of grain grading, though not perfect, was, in his opinion, all the chief wheat exporting countries the best system in the world, the dean implied in his remarks. The chief competitors, he said, were Australia and the Argentine, were taking steps to imitate the western system. The American system was commensurate with too much detail, he explained.

Dean Rutherford believed that eventually the system of sampling from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lake or at Vancouver. More than 50 per cent of the cars, he pointed out, were too full for sampling. Both the unloading and elevator companies, he said, had been overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a large number of samples during the unloading, which gave an absolutely reliable sample. This sample was kept for a sufficient length of time to allow for inspection.

He stressed the point that the elevator companies should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, and these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producers.

New machinery, Dean Rutherford said, had led to some changes. Separation of weeds and foreign varieties of grain could now be made. Wild oats were now a commercial commodity and were sold in the East Indies, where they were fed to mules. The new machinery had made more than a bushel out of wild oats last year.

## RESTRICTIONS ARE PLACED ON GRAIN LOADING

Winnipeg.—Restrictions had been placed on loading grain for government bins on both the Canadian Pacific and the Canadian National railways, but the prairie and lakehead storage elevators remained virtually unchanged. Prairie elevators held an added million bushels of grain and due to heavy boat shipments lakehead storage dropped almost perceptibly.

A new order will restrict loadings for the government elevator at Edmonton, which now holds 1,058,000 bushels in relation to its capacity of 2,500,000 bushels. It is stated by Canadian National Railway officials that sufficient grain is in transit to ensure the bins being filled close to capacity. Orders are already in effect against loading over 974 to 979 cars, and markings from 2,397,000 to 2,644,000 bushels. Unloadings and arrivals of grain cars at the lakehead were virtually unchanged, and awaiting unloadings were reported increased by only five cars to 4,029 cars. The total grain at the lakehead and Port William edged down a mere 21,000 bushels to 72,641,000 bushels, when seven boats carried out 1,619,000 bushels in the largest days' aggregate for some time.

Total storage in government elevators showed an advance of almost a quarter-million bushels to 9,397,000 bushels, about two and a half million from capacity combined. However, storage at all country elevators showed there was no reason for worry with the aggregate at 85,954,000 bushels — not even half of them capacity aggregate.

Storage in government elevators and marketing as a result of the conclusion of the two-week car rationing system was reflected in increased figures. Total sample loadings for 24,000 cars, and markings from 2,397,000 to 2,644,000 bushels. Unloadings and arrivals of grain cars at the lakehead were virtually unchanged, and awaiting unloadings were reported increased by only five cars to 4,029 cars. The total grain at the lakehead and Port William edged down a mere 21,000 bushels to 72,641,000 bushels, when seven boats carried out 1,619,000 bushels in the largest days' aggregate for some time.

## Viewed Driftable From Air

Prince Of Wales and Prince George Used Airplanes

London, England.—Prince of Wales and his brother, Prince George, it became known, went in aeroplanes to inspect the coast of the north of the driftable. They finally found it and after circling it, and clearing it from the air, both returned to Northolt, Middlesex.

## Bandits Torture Farmer

Hung By His Thumbs and Throat To Be Burned Alive

Lethbridge.—A strange story comes from the border where, about 15 miles from Cattle-Street, Grace, Saskatchewan, farmer, was hung by his thumbs, threatened to be burned alive with distillate and robbed of \$200 by a band of three men.

The story has been authenticated by the Alberta Provincial Police, who believe that one of the bandits is the man who had held up Fred Richardson at the C.P.R. station here and robbed him of \$32, as the holdup at Sweet Grass took place the morning after.

## Labour Wins In Australia

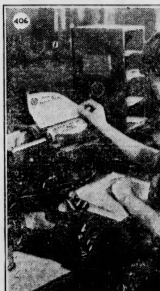

Melbourne, Australia.—The assumed defeat of Prime Minister Stanley Bruce in his own constituency at Flinders changed the standing of parties following the Australian general election. The result was a victory for the Labor party, 45; Nationalists, 15; Country party, 10; Independent-Nationalists, 2; Independents, 1, and Country-Progressive, 1.

## Prince Will Represent King

London, England.—For the first time since the erection of the cenotaph commemorating Britain's war heroes in Whitehall, King George will be absent from the Armistice Day Service, November 11, this year. It was announced that the Prince of Wales would represent the King and lay a wreath on the cenotaph for him.

## Men Accept Invitation

London, England.—So far 150 holders of the Victoria Cross have accepted the invitation to a dinner in the parliament buildings two nights before Armistice Day, November 11, the Prince of Wales will be present. Many patients of cases of poverty among those heroes have been discovered.

## Women Work Wires

Women make excellent telegraph operators, according to Mr. J. McMillan, general manager of the extensive Canadian Pacific Railway telegraph system. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, and in addition to vastly speeding the service, gave an opportunity for expert typists to operate the automatic machines having a key-board like that of a typewriter, and a knowledge of telegraph code is required. Roughly forty per cent of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent working on Morse code, and forty-two per cent on the automatic machine. The photograph shows two girls operating one of the battery of sending machines, inset is Mr. McMillan, who controls 100,287 miles of wires.

## The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League; at other times the sneers of cynics who advise us to go on with our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what it does at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superfluous rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things to which little attention is paid. Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of commonsense arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Araba slaughtering Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may blaze into wholesale murder at any moment and justice and commonsense are powerless for the moment. That such an agency as the League has time and again proved that once the first outbreak is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life. Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian position, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programme.

### London's Oldest Bank

London's oldest bank is the Bank of Montreal, the oldest in Canada. It was founded in 1817 and has since that time been a leading financial institution in the Empire. It has a long and distinguished record of service to the public, and its capital and resources are second to none. It is a member of the Bankers' Association of London and the Bankers' Association of Canada.

### Meat Consumers Protected

The best breeding and grading of livestock, the age of which cannot be vice directed by the Dominion Department, but there is in the Department of Agriculture went into existence a receipt dated 1933 for feed throughout Canada, September money deposited there in that year. The object is to protect the consumer insofar as the quality of business as a goldsmith.

## Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana combined, according to a compilation made by J. S. Burr, Calgary geologist. He said: "It may be interesting to the oil fraternity of Canada to know that although Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil in barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

## A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas, pain in the intestinal tract, pains around the heart, sour risings in the throat, heartburn, indigestion, are common symptoms of dyspepsia. It is a condition often met with, and one which does not merit harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Blood blood and plenty of it is required by the stomach to digest food. If the blood is thin the stomach becomes sluggish, food is undigested, gas is formed, causing pain around the heart. Instead of getting nourishment from the food, the system gets poison. The proper treatment is to enrich the blood and give other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ of the body in the body, and thus not only banishes indigestion, but also all other troubles having their origin in weak, watery blood.

The following result follows the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempton, N. B., now living with her son at West Bethel, Me. She writes: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion, and after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at home and also at West Bethel, but without getting relief. I was introduced by a friend to Dr. Williams' Pink Pills. I did not know what they were, but I felt that I would give them a try. I found that they gave me the relief I needed. I had taken nine or ten boxes of them and I felt much better. I was able to eat and I was much more comfortable. I am now feeling as well and smart as I did 15 years ago, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from Dr. J. C. Williams' Medicine Co., Brockville, Ont.

## High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain for members of the Canadian Seed Growers' Association, shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than had been generally reported. There were nine inspectors out and 500 fields viewed, including many in the Peace River country.

## Deposits Are Important

British and American Capital Interested in Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places, and work now in progress in two or three camps will go far towards proving whether or not it is to be found in commercial quantities. But whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

## Resolves New Appointment

Dr. Seymour Hawken, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

No need to suffer with corns, or to run the risk of putting them. Remove them surely and painlessly with Holloway's Corn Remover.

William Baker, mail carrier at Forest, Ont., on special occasions, wears his walking shoes. The shoes are 41 years old.

## Ventured Into Northland

Three American Women Made Interesting Trip This Summer

Three women in a boat, not to mention the guide, made a three weeks' journey down the Peace River this summer to fulfill the adventurous dreams of three American girls. For the far northland of Canada has an allure not alone for the sturdy settlers who farm its broad stretches but is an wilderness in its appeal to the modern explorer.

Meeting at Vancouver, Dr. June Lightning, a doctor of philosophy, from the University of Minnesota, Dr. Lydia Lightning, her sister, a physician from Philadelphia, and Miss Lillian Larson, a physical training instructor from Casper, Wyoming, took the boat to Prince Rupert, the train to Prince George, and from there their adventures began.

Judge Robertson of Prince Rupert, assisted the party of women to make the final arrangements. He is the son-in-law of the district and knows what is needed on such a trip. Here they had their own boat made up of a small motor attached with which they were to make the trip.

From Prince Rupert, the three women made the trip to the country of northern British Columbia. Boating for days up the lake, the party camped every night. The trip was reached was a delightful experience, Miss Larson said.

At Fort MacLeod an Indian Chief guided his lay house to them and inviting the neighborhood to a pow-wow, they danced until the small hours of the next morning. The party camped every night along the river while their days were filled with fishing.

Every spot inhabited place they came to was a signal for a dance which began early and lasted late.

## Open Kindergarten For Japanese Children

School Has Been Inaugurated At Koko By Canadians

The first kindergarten for children of foreign residents of Koko has been opened by the Canadian Academy in that city. The kindergarten stands on premises offered to the academy by the Koko Union Church.

Miss Winifred Taylor, of London, Ontario, who has specialized in kindergarten work and who recently arrived in Japan, is in charge of this new department of Canadian educational activities in this country. Mrs. A. J. Kentwell will assist her.

The initial enrolment of the kindergarten is 26 children, representing nine nationalities, including beside Canadian, Japanese, British, United States, Danish, Swiss, German, Russian and Indian nationalities. H. P. Woodworth, chairman of the board of the Canadian Academy, stated that with the opening of this department for the little children the academy now has a complete course of education for a school of its grade, that is, from infancy up to entrance at a university.

The new department, Mr. Woodworth continued, is the result of a good deal of planning by the faculty, the idea having been conceived some years ago, but for various reasons it has been unable to carry it into practice until now.

It was pointed out that the kindergarten, open as it is to all nationalities, has an important mission in such a cosmopolitan community as that of Koko, as it can render great service in stimulating international mindedness through the children.

## Persian Balm Preserves and Enhances Women's Natural Heritage of Beauty

For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin and makes the complexion turgid. Delightful to use. Smooth and velvety. It imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexion.

## England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-Sen at Nanjing. Reports from the East say that that when the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

## Minard's Liniment For Neuritis

Young people aren't as quiet as the young people of olden days used to be, but neither are the old people.

# When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The right way to correct it is with an alkali which neutralizes many times its volume in acid.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know it. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acidness. Each bottle contains full directions—any drugstore.

## Advertise Your Town

Signs Showing Name Would Be Appreciated By Touring Visitors

In this vacation season automobile tourists must be impressed with the difficulty of knowing what town or village they are approaching, often when within its outer limits, because of the absence of signs giving the town name, says the Boston Transcript. It is true that rural post offices are obliged to bear the town name, but unless some enterprising board of trade takes the matter in hand, the information regarding the place is kept secret.

This is poor enterprise, and worse advertising. Proper announcement of the town or city soon to be reached is information which the traveller often craves, and is always of interest, even though travelling at a speed makes night of the attractions necessarily brief.

An Old Merit—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertisement. It is the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it is to end long public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

## Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

A list of "Wanted Inventions" and Full Office Refs. See Free On Demand. The RAMSAY CO. 273 BANK ST. OTTAWA, ONT.

## 6 Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

First—Buy a supply of Gyproc Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting child's nursery.

Second—Renovate the lower eaves by nailing Gyproc siding over cracked and faded walls. You can decorate the hill, smooth Gyproc surfaces with Alabaster, and paint or any other finish. And what a difference it will make to your home.

Third—Line your garage with Gyproc. Your flock will be better housed, and year-round protection from fire, cold, heat and vermin.

Fourth—Line your grain bins, barns, stables and other buildings with Gyproc. By doing so you will make them more valuable, clean, cold resistant and 50 per cent. more beautiful for your stock to live in.

Fifth—Look about for cracks, warped or rotted walls, partitions and ceilings and replace with Gyproc. Such repairs are quick and inexpensive to make because Gyproc is easy, nails and cuts so easily—saves time and labor.

Canada Gypsum and Alabaster, Limited

Head Office: Toronto

Branches: Montreal, Toronto, Windsor, Winnipeg, Vancouver

Fireproof Wallboard

# Needless Pain!

Some folks take pain for granted. They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary because there is relief from various aches and pains we once had to suffer. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drugs with complete directions.

ASPIRIN  
TRADE MARK REG.

**Goodfellow's**  
Blue Ribbon Tea  
Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavor is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1928, Warner Bros. Pictures, Inc.

**SYNOPSIS**  
Al Stone, singing waiter at Black Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and her father, Mr. Winton, who Al has a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bonho, where he is part owner and master of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

**CHAPTER XVIII**  
Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read: "Miss Molly Winton, headline in The Merry-G-rounder, the most popular Marcus review of the season, has left the cast temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Eastman."

"Temporarily?" exclaimed Al. "Well, we just phoned it that way in case she should happen to come back. What's the meaning of all this, Al?"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young songwriter. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully. "Boy, you're holding back on this. I can tell from your expression that she's done something to you too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't, but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me away on this. It would make scandal and I don't want publicity. I

want to work it out on my own way. But—Molly has left me."

"How? I'll be mum—but when, why?"

"Last night—with John Perry. Left a note. She took Junior."

For this stricken man. Here stood his best song-writer, the boy he had discovered and made famous, the lines of his face sharply etched with pain. Al seemed to have aged overnight.

The producer jumped up, ran across the table, put his arm about Al's shoulders.

"Don't let it throw you!" It's a long look on his face as he gets it some day from that girl."

"Yes, I know it—now!" Al answered bitterly. "But would you see it coming?"

The producer nodded. "Do you remember that night down at Blackie Joe's three years ago—you insisted that if I bought your song I'd have to give your sweetie, Molly, a good review job too? I took a long look at a pretty—and I decided she was a chatterbox."

"Then, when John Perry came along I saw a few things. But I thought it might blow over—there was no warning you. You loved her too much."

"I loved her too much, that's true," admitted Al. "I trusted her completely, and I trusted John Perry, too. I'd like to get that snake alone."

"Again the feeling of rage returned to Al. Marcus's grip tightened on his shoulder.

"Steady, Al. You don't win this battle that way. Let her go—forget her."

"It's easier to say than to do, Marcus. Besides, she's taken my boy, Junior. That's what hurts most."

"I know, I know," Marcus gently led Al toward a chair. "Here, sit down, pull yourself together. And have a shot of Scotch."

At the end of the week he came to a sudden decision. He approached Billy Cline, his business partner at the Bonho, for a conference. They sat in the office one afternoon above the ballroom of the Bonho.

"Billy," Al began doggedly, "I can't go on with this. You know why. I can't appear before that crowd downtown and go through with my wise-cracking routine. So I might as well get out, bag and baggage."

"Sell out, you mean?" questioned his partner.

"Yes, just that. I want you to say my interest and I'll disappear. I'm through with Broadway—the whole life."

"Don't say that, Al," countered Billy. "You've got a thousand more songs in you—every one a hit."

"No," Al shook his head. "It's the end of all that sort of thing. My partner hesitated. "Well, Al, of course I'll buy your share in the club, but the place won't be the same without you."

"I suppose that's true, Billy, but my heart isn't in it. You've got to feel gay to be gay—in it, consistently. I thought I could work through that thing, but I can't, so—I'm out."

Billy Cline studied Al's face just as Marcus had done, trying to find some way his friend's problem might be solved. But he ended by making a gesture of acquiescence to

Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an old boy had just left on a nearby chair. He turned it over—and staring at him from the front page was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Molly's hard eyes in the newspaper reproduction seemed fixed on Al in cynical and cruel triumph. In a two-column he read:

"Interviewed at her suite at the Biltmore today, prior to sailing on the 'Le de France,' Molly Winton, celebrated songstress and late star of 'The Merry-G-rounder,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, songwriter and Broadway's favorite master of ceremonies."

That one sentence was enough. Al dropped the paper and jumped up just as Billy Cline returned with the Club Bonho account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the columns their eyes travelled to the part marked "Sailings-Today." And then—"Le de France—6 P.M." Cline looked at his watch.

"It's three now. You might be able to stop them."

"You mean legally—the police?"

"That's just a chance."

"I won't do that. I have my reasons. But I must see Junior before he leaves—you don't know what he means to me, Billy."

Al grabbed up the 'phone from Cline's desk and put in a call for the Biltmore.

"I'd like to speak to Mrs. Al Stone."

Molly was superintending the packing of her bags when the 'phone rang. Junior was playing in the adjoining room of the suite, and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The next put down an armful of Molly's clothes and moved toward the 'phone.

## A Goliath Among Animals

**Monster Uncarried in Africa Twice Length of Biggest Whale**  
Lying under the ground in Tanganyika Territory, Africa, are the remains of a very Goliath among animals, a reptile as long as a street.

Part of it has already been uncovered, and the dimensions of the fossil bones suggest that it must be at least twice as big as the Diplodocus Carnegi, the giant found in Wyoming and now in the Carnegie Institute at Pittsburgh. A cast of this creature is in the Natural History Museum at South Kensington, England, and as that is 80 feet long, the newly discovered monster of Tanganyika must be at least 160 feet long, or nearly twice the length of the biggest known whale.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the columns their eyes travelled to the part marked "Sailings-Today." And then—"Le de France—6 P.M." Cline looked at his watch.

"It's three now. You might be able to stop them."

"You mean legally—the police?"

"That's just a chance."

## Says Monkeys Have Language

**Naturalist Believes Baboons Actually Talk To One Another**  
Among many curious discoveries made by Cherry Kearton, the naturalist, during a recent expedition into Central Africa, is one of particular interest. He has found out that baboons have a language of their own and do actually talk to one another.

"You can often see their lips move as if in question or answer," writes Kearton, "and sometimes they seem in this way to carry on quite long conversations."

On one occasion the naturalist was waiting patiently with his camera in a "hide-up" which he had carefully built of stone near a water hole when a large troop of baboons, headed by one old leader, came down to drink.

"Among them was a mother with her baby perched like a little jockey on her back," says Kearton. "She went up to where the old chief was sitting on a stone, exactly like a human being. The mother very gracefully placed her offspring almost at old fellow's feet before she stooped to drink. While she was drinking, the old baboon—becoming, apparently, suddenly interested in his back as nursemaid—picked up the baby, examined it and held it on his knees until the mother had finished."

"A few minutes later the mother, taking it from him, said something which I hope was a word of thanks, and then, with her child in her arms, she moved down and entered into what could only have been a conversation."

Health cannot be looked for in the child that is subject to worms because worms destroy health by creating internal disturbances and retard development and cause serious weakness. Miller's Worm Powders expel worms and are beneficial in their action that the system of the little sufferers are restored to healthfulness, all the discommodities and dangers of worm infestation are removed, and satisfactory growth is assured.

## Click Made Of Wood

**Constructed By Convict Serving Long Sentence In Europe**  
Having every part, even to the smallest wheel, composed of wood, a clock has been constructed by a convict in Europe, who recently completed a 20 years' sentence. It is built into a cupboard, runs without human supervision, and contains 30 watches which show simultaneously the correct time, in the 30 largest cities in the world. Another watch in it shows the movements of the sun, moon and stars. A barometer predicts the weather. A chronometer marks the passing of the days, weeks and months overrunning, unaided, the irregularities of leap year.

## Does His Bit

"You don't make very good music with that instrument," said the band leader to the man with the bass drum, as the band ceased to play.

"No," admitted the pouter, "I don't. But I draw a heap of bad music."

## Little Helps For This Week

"Give me thine heart."—Proverbs xliii. 26.

What can I give him, Poor as I am? If I were a shepherd, I would bring a lamb; If I were a wise man, I would give him my part; Yet what can I give Him? Give my heart.

—Christina G. Rossetti.

O Lord! take my heart for I cannot give it; and when Thou hast it, keep it for I cannot keep it for Thee; and save me in spite of myself, for Jesus Christ's sake.

—Fenelon.

## Believe Asthma At Little Expense

Expense. Thousands of dollars have been vainly spent upon remedies for asthma and asthma, if ever, with any real relief. Dr. Williams' Asthma Remedy, despite its assurance of benefit costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

## Rolling Up Mileage

It is calculated that the total mileage now run by cars on British roads is 12,000 million miles a year. The total running mileage of British railways is about 600 millions made a year. The motor mileage is, therefore, about twenty times as great as the mileage of the railways.

## Wonderful For Indigestion!

When your stomach feels indigestion; when Gas, Bloating, Nausea, or other distressing symptoms are present, a single dose of our Wonderful Nausea will bring relief. It is a truly effective remedy for indigestion. It is really wonderful. Even the most intractable case quickly responds. Pleasant and agreeable to use. Ask your druggist.

**EVEREADY**  
You can use these famous batteries until the heavy zinc plates are riddled full of holes—and they'll still keep on running your radio! ## CHAMPION CHATTER

VOL. 2

Thursday, October 24, 1929

No. 24

Published in the interests of the People of Champion and Farmers of this vicinity.  
GEO. L. DEPUÉ, Editor.

### EDITORIAL

Lloyd George once said "No country ever long lived when its cities and towns grew and its country faded."

These boys from the East sure know their stuff. Congratulations Anita.

Our old friend, G. P. Smith, has been showing some of his talents. Congratulations, Mrs. Frank.

Nature is the author of that book over which Spring comes, Summer smiles, while Autumn turns the leaves and Winter catches the drift of it all.

Win Penn Motor Oils, "Still the Best."

Make your tractor pay its way by keeping it busy every working day.

"Good Equipment Makes a Good Farmer Better."

When Nero set fire to Rome he burned the only thing history records as having been developed during his reign—ice houses.

We have on display a new 1929 400 A series Nash. You should look this new car over.

Judging from activities around the stock yards this week, Champion has attained a prominent position in the hog producing industry.

Fasten short pieces of rubber, cut from your old auto tires, over the axles of your wagons and these will keep the sand and grit out and make for better lubrication and longer life.

Don't make a mistake when purchasing a radiator in grinding, feel sure to select a Vesoot.

You must keep the sand and grit out and make for better lubrication and longer life.

Tommy Doyle is reported on the way to an early recovery after nearly a very serious accident.

"I can't help you" said the doctor to the incoming patient. "I am a veterinary surgeon."

"You're just the man I want, because I was a jockey to try to climb a telephone pole with my car."

Our heartfelt sympathy goes out to the family and relatives of Mrs. Stephenson in their sad bereavement.

Tommy Doyle is reported on the way to an early recovery after nearly a very serious accident.

On Fireguard road about 8 miles west of Champion, bumperette. Owner call at Chronicle office.

## VILLAGE OF CHAMPION

### Notice Re Halloween

Residents of the Village are advised that no willful damage or interference with property on Halloween night will be tolerated.

Persons disregarding this notice will be prosecuted.

By order of THE VILLAGE COUNCIL

Mrs. Giolo, of Bellevue, is the guest of Mrs. Latiff.

E. Latiff is in Vancouver, where his brother is very ill.

Inspector Sullivan visited the Sanderson school on Monday.

Mr. and Mrs. W. R. McKee returned recently from Vancouver after a month's visit there.

The new farm house being built by Carl Robinson, near the irrigation ditch, is nearly completed.

Mr. and Mrs. A. Ruggles and party arrived safely at Oank, Minn., on Sunday last after a splendid trip.

Mrs. C. McLean was a tea hostess on Friday afternoon in honor of Mrs. J. Giolo, who is visiting in town.

The days are with us now when to forget to drain your car is inviting trouble unless you have an anti-freeze mixture in it instead of water.

Max Nickle, of the Alston district is selling his farm stock, implements and household effects on Monday, October 28th.

The list includes a complete line of farm implements and machinery, horses, etc. A Hopkins is the auctioneer.

Mrs. J. N. Beaubier, Mrs. W. C. Ryan, Mrs. Jopling and Mrs. H. Jopling were bridge hostesses this week in honor of Mrs. W. C. Hoskins who leaves next week for Vancouver.

Born to Mr. and Mrs. Carl Robinson, Oct. 20, a daughter at Mrs. Milliken's nursing home.

The C.G.I.T. girls entertained on Friday evening in the church for Helen Hoskins. After an enjoyable evening Helen was presented with a small cedar chest. Refreshments were served.

A large outfit is at work widening the road across Snake Valley east of Champion. An elevating grader, caterpillar tractor and dump wagons are in use and a splendid job is being made.

Mrs. Martinson, of Calgary, is visiting her daughter, Mrs. A. H. Anderson. Mrs. Martinson is recovering from a serious operation performed two weeks ago.

### Card of Thanks

Mr. and Mrs. Baslin and family wish to thank their friends whose kindly offers of assistance and practical sympathy did much to lighten their burden of sickness.

China Bound, with Karl Dane and Arthur. This Saturday.

## Want Advt's

## LOCAL AND GENERAL

W. C. Hoskins' Furniture Sale Oct. 31st. Watch for bills

The Exalted Flapper next week's picture, is as modern as this morning.

Jos. Hicks, barrister, of Barons, will be at L. J. Adams' office every Tuesday and Friday where he may be consulted.

Jacob Goodman, who has been in the Calgary Sanitarium for some time is improving in health very satisfactorily.

A large number of O.E.S. members motored to Lethbridge on Tuesday to attend the Chapter, the work being put on by the Past Worthy Matrons of Lethbridge as it was done fifty years ago.

Women's Institutes have been notified that in future no prizes may be given in connection with baby clinics which are carried on in connection with the provincial department of health.

E. Siler cut 1670 acres of grain this year with a 10ft. Case combine and a 20-30 Wallis tractor. He left this week for St. Paul de Metis, accompanied by Mrs. Siler. The latter will remain at St. Paul while Mr. Siler goes after moose, west of Edmonton.

"The Royal Tiarra" hides a boyish bob." See the Exalted Flapper.

K. R. McLean R. O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, November 22 at the Drug Store.

Perhaps the most cheering feature of the wheat situation is the high quality of the grain held. It is a rare occurrence for this class of wheat to decrease in price as the season advances.

A large number of O.E.S. members attended Chapter in Lethbridge on Tuesday night, the work being put on by the Past Worthy Matrons of Lethbridge as it was fifty years ago, costumes being included. The visitors were highly pleased with their experiences.

W. C. Hoskins has advertised the sale of his household effects for Thursday, October 31st, commencing at 1:30 p.m. This will afford a decided opportunity for those desiring to acquire house furnishings of any kind. The sale includes a large quantity of high grade furniture which must be sold, as Mr. Hoskins and family are leaving town.
